

Brand new for the 2017 season, Graphite Design introduces the latest in the Tour AD premium line of golf shafts, the **Graphite Design Tour AD TP**. Designed and manufactured at the Graphite Design Japan factory headquarters, the new **Tour AD TP** wood shaft is available in 40g R2, R1 and S flex, 50g R2, R1 and S flex, 60g SR, S, X and TX flex, 70g S, X and TX flex and 80g S and X flex.

Designed around new tooling, the **Tour AD TP** utilizes a brand new technology called **Fast Taper Technology** or "**FTT**". This new technology incorporates a faster taper rate from the lower mid-section to the tip of the shaft than previous Tour AD wood shaft models resulting in an overall feeling of greater club head control at impact and an increase in club head speed through the swing.

The new **Tour AD TP** shaft has a medium stiffness starting at the handle thru the mid-section of the shaft and a stiff tip profile to promote a mid to mid/high launch condition and low spin. The new **Tour AD TP** utilizes premium, 50t carbon fiber materials as well as the ultra-high tensile strength TORAYCA® T1100G carbon-fiber with NANOALLOY® technology in the tip section for additional shaft stability, exceptional feel and precise ball control.

Make a change in your Driver or Fairway metal wood today to the same shaft that the professionals use, the new "**Tour Proven**" **Tour AD TP** model of premium Graphite Design graphite golf shafts with **FTT - Fast Taper Technology**.
