

鉄父 Chichibu

Brand new for 2018, Graphite Design introduces a completely new ultra-light weight premium wood shaft design, the **Graphite Design Chichibu** series. Named after the city of Chichibu, Japan where the Graphite Design Japan factory headquarters is located, the **Chichibu** wood shaft model is a light weight shaft under 45 grams and are available in 4 flexes of R (Regular), SR (Stiff Regular), S (Stiff) and S+ (Stiff Plus) for precise shaft flex fitting in order to gain maximum distance.

The **Graphite Design Chichibu** series of wood shafts are designed for golfers with a driver swing speed range of 60 to 85 MPH. They have a soft tip profile and a Low Kick Point that will produce a High ball launch condition and Mid-ball spin rates providing added gains in distance versus normal stock shaft offerings. Individually hand-crafted to very tight tolerances, the **Chichibu** shafts use premium, ultra-thin aerospace quality carbon-fiber materials to obtain a light weight characteristic, as well as to provide the golfer with a shaft that possesses superior response and feedback at impact.

The Chichibu series of shafts are a fine example of an extremely high quality and superior performing golf shaft, made in Japan and that follow in line with the 25+ years of heritage that all of the premium Graphite Design shafts are so well known for.
