

## Tour AD GP

Designed and manufactured at the Graphite Design Japan factory headquarters, the **Tour AD GP** wood shaft is available in 45g R2, R1 and S Flex, 55g R2, R1 and S flex, 65g SR, S and X flex, 75g S and X flex and 85g S and X flex.

The **Tour AD GP**, like its predecessors, utilizes premium, aerospace quality 50t carbon-fiber materials in order to deliver the best feeling and performing shaft available to golfers. The **Tour GP-4's** are unique and designed for a player that is looking for a light weight shaft with a soft tip to butt profile that will help launch the ball higher. The **Tour AD GP-5's, 6's, 7's and 8's** are designed with a very stiff tip and stiffer mid to butt section to promote a mid-launch condition and low spin.

The **Tour AD GP -6 and -7** models are available in a Black color scheme and are called **Tour AD GP - Black Edition**. The shaft structure of the Tour AD GP Black Edition shafts are exactly the same as the Tour AD GP Teal color shafts and the only difference is the color.

The **Tour AD GP** also utilizes the latest in graphite material from Toray Industries, Inc., TORAYCA® T1100G carbon-fiber pre-preg with NANOALLOY® technology in the tip section of the shaft for additional shaft stability, exceptional feel and precise ball control.

If you are looking for a super-premium graphite golf shaft for your Driver or Fairway woods, the new **Tour AD GP** may just be for you and the **G**reatest Performing shaft you ever hit.
