

Tour AD UT

The **Tour AD UT Hybrid** series is designed to help provide a higher trajectory for maximum distance and control with a low kick shaft design. Utilizing proprietary composite materials the TourAD UT hybrid shaft produces exceptional feel from take away through impact delivering great responsiveness.

Tour AD UT-55 & 65

The UT 55 and UT 65 shafts are designed to feel and perform like a wood shaft. The UT-55 hybrid shaft is a lightweight, low-kick point, mid-torque shaft that produces higher launch angles for maximum distance. The UT-65 hybrid shaft is a low-kick point, lower torque shaft designed for better players with low to medium swing speeds. Both of these shafts are perfect for players with slow-mid tempos who are looking for maximum distance and control with a higher launch angle.

Tour AD UT-85 & 95

The **Tour AD UT 85 & 95 Hybrid** shafts are more of an iron type of hybrid shaft designed for higher swing speed players seeking more control and mid launch angles. Consistent with the UT characteristics, this shaft produces exceptional feel and consistency providing players of all skill levels optimum launch and exceptional distance control. These shafts are perfect for players with mid-fast tempos.

MSRP \$290 55g & 65g

MSRP \$225 85g & 95g
