

The team in the R&D lab at Graphite Design Japan went all out when designing the new **Graphite Design MAD** wood shafts. A challenge was issued to them to design a shaft that would alleviate the ill-fated golf ball flight issues that results in a lack of **Maximum Accuracy and Distance**. Accepting the challenge, they went to work in an effort to develop a cure.

The new **Graphite Design MAD** shaft is their response. Available in two strengths, the **Graphite Design MAD** Standard strength wood shafts are available in a 45g A and R Flex, 55g R and S Flex, 65g R and S Flex and a 70g S Flex and is designed for the intermediate to advance players.

The **Graphite Design MAD PRO** strength wood shafts are available in 65g S and X Flex and 75g X Flex and is designed for the advanced to professional players with higher swing speeds.

Make an appointment with your local professional golf club fitter and request that he write you a prescription for a new **Graphite Design MAD** shaft to cure your ball flight issues that may be holding you back from achieving **Maximum Accuracy and Distance**.

MAD STD Shaft MSRP \$225
MAD PRO Shaft MSRP \$325
