

Designed and manufactured at the Graphite Design Japan factory headquarters, the Tour AD F-Series Fairway shafts are available in 55g R2,

R1 and S Flex, 65g SR (Stiff Regular) S and X flex, 75g S and X flex and 85g S and X flex.

The Tour AD F-Series Fairway shafts are designed with a softer tip and stiffer butt profile and feature a Low Kick Point for higher launch conditions into the air and mid-ball spin. Manufactured under the same tight tolerances and with premium, aerospace quality 40t carbon-fiber materials, the Tour **AD F-Series** of shafts fall directly in line with all of the other high quality Graphite Design shafts as a complementing Fairway wood shaft.

Should you be searching for a new Fairway shaft that is designed to provide maximum distance and extra forgiveness off the fairways, then a new Tour AD F-Series Fairway graphite shaft may be the answer to what you are looking for in a high performance golf shaft for your Fairway metal-woods.
